

Electra-Ride Elite

Straight Rail Battery-Powered Stairlift

Flexible Seating

No matter what challenge you face, the Electra-Ride Elite seating can be adjusted to meet your needs. The seat height can be adjusted from 19" to 24.5". The footrest can also be adjusted to make the unit even more comfortable. The armrests independently flip up for easy wheelchair transfer.

Compact

Your guests will get up with ease after the unit is installed. **The Electra-Ride Elite rail is only 5" off the wall!** The seat and arms of the carriage flip up out of the way when the unit is not in use.

Clean Design

The unique yet simple design of the rail hides the mechanical components, keeping the grease and dust away from you and your clothes.

Reliable operation

The Electra-Ride Elite uses two 12-volt batteries that are continuously charged by a state-of-the-art battery charger that plugs into any household outlet. Our leading edge technology assures you access up and down the stairway even if the electrical service in your home is interrupted.

Safety

You will be totally at ease on your Electra-Ride Elite. When traveling on the stairs, the Elite will sense any obstacles and will automatically stop. When you want to get off the unit upstairs, the seat easily swivels so you face the hall. A retractable seat belt is standard. The Electra-Ride Elite meets all ANSI - A18.1 residential requirements, as well as all public building specifications with the optional commercial package.

Affordable

The Electra-Ride Elite provides a cleaner installation with no need to modify your home or install additional electrical outlets.

The arms, seat and footrest flip up, creating plenty of space for guests to walk up the stairs.

The Electra-Ride Elite's hidden rack and pinion drive system provides a smooth ride, without hesitation when the unit stops and starts.

Electra-Ride Elite

Straight Rail Battery-Powered Stairlift

Exceptional Value
