

SL 2000

CURVED Residential Stairlift

The SL 2000 Curved Stair Lift offers the ultimate in convenience and ease of use. Whether your stairway is equipped with multiple landings or custom-shaped steps, the SL 2000 Curved Stair Lift is the ideal solution for stairway mobility. The unique, dual slimline track, folding arms and footrest take up minimal room, ensuring maximum usable stairway space. Customers are guaranteed quick delivery and minimal installation time is required.

Obstruction sensors on footplate and main carriage stop immediately on contact with any obstruction.

SL 2000 Standard Features

- *Dual Slimline Track* - The SL 2000 has a track designed to fit staircases with bends, spirals and intermediate landings.
- *Compact Chair* - Seat, footrest and arms fold up and out of the way when the stair lift is not in use.
- *Safety Sensors* - Sensors on the footrest, seat chassis and power unit ensure that the stair lift will stop if it detects any obstruction on the staircase.
- *Swivel Seat* - The SL2000's seat swivels at the top landing and locks in either 45 or 90-degree position from the landing edge.
- *Battery Powered* - DC power pack provides smooth starts/stops and an exceptionally stable ride. The SL 2000 automatically charges using any standard 110-volt outlet.
- *Hand Controls* - Unique operating lever enables operation of the stair lift with minimum hand dexterity.
