

# STERLING I

## STRAIGHT

### Residential Stair Lift

#### *Sterling I Standard Features*

- **Slimline Track** - The Sterling I has a track designed to be mounted as close as 4" (100mm) from the wall.
- **Compact Chair** - Seat, footrest and arms fold up into a vertical position when the stair lift is not in use.
- **Safety Sensors** - Sensors on the footrest, seat chassis and power unit ensure that the stair lift will stop if it detects any obstruction on the staircase.
- **Swivel Seat** - The Sterling I's seat swivels at the top landing and locks in either 45 or 90-degree position from the landing edge.
- **Battery Powered** - DC power pack provides smooth starts/stops and an exceptionally stable ride. The Sterling I automatically charges using any standard 110-volt outlet.
- **Hand Controls** - Unique operating lever allows operation of the stair lift with minimum hand dexterity.

*Traveling up and down stairs is effortless with the Sterling I Straight Stair Lift. The Sterling I features state-of-the-art design and comfort and requires minimal space, keeping your stairway clear for other family members. The unique drive system offers a smooth, quiet ride, with soft starts and stops. The battery powered drive system, with automatic recharging at upper and lower landings, ensures the stair lift is always ready for use, even in a power failure.*
