

TRAINING FOR LIFE

At the AmputeeTeam **TRAINING FOR LIFE CLINICS**, amputees will have the opportunity to learn exercises designed for the beginning, intermediate and advanced level patient. Therapists and family members will have the opportunity to assist amputees in their exercises and be able to implement these hands-on skills in their practices or at home.

The **TRAINING FOR LIFE CLINICS** are also an excellent way to continue the rehabilitation process on a monthly basis. All age groups and activity levels are encouraged to attend. The exercises and training methods have been designed to ensure that all amputees can benefit.
