Date: March 26, 2020
RE: Coronavirus Update – Washtenaw County Emergency Order

Effective today, Washtenaw County is also mandating an order that all Essential Businesses that remain open, must screen all employees for protection and limiting the spread of COVID-19 during this state of emergency. Yesterday, Wright & Filippis adopted the screening as their policy for all employees regardless of the county they are reporting to work in. It is important for all to understand the reason behind the decision to support social distancing and not allowing ill workers into our workspace. This virus continues to spread rapidly and is consuming hospital occupancy. Please be responsible and do what is right to limit each other and our patients to possible exposure.

Attached is the updated Wright & Filippis policy. It now includes Washtenaw County. There was also an update to the wording in reference to the requirement when an employee answers yes to having any symptoms. The intent was to make this clearer and we used exact language from the order.

- Ann Arbor will need to post the attached Executive Order to their entrances
